

Location intelligence for smart cities: Renewable energy potential

Dr. Valeri Tsatsishvili
Chief Product Officer
CHAOS

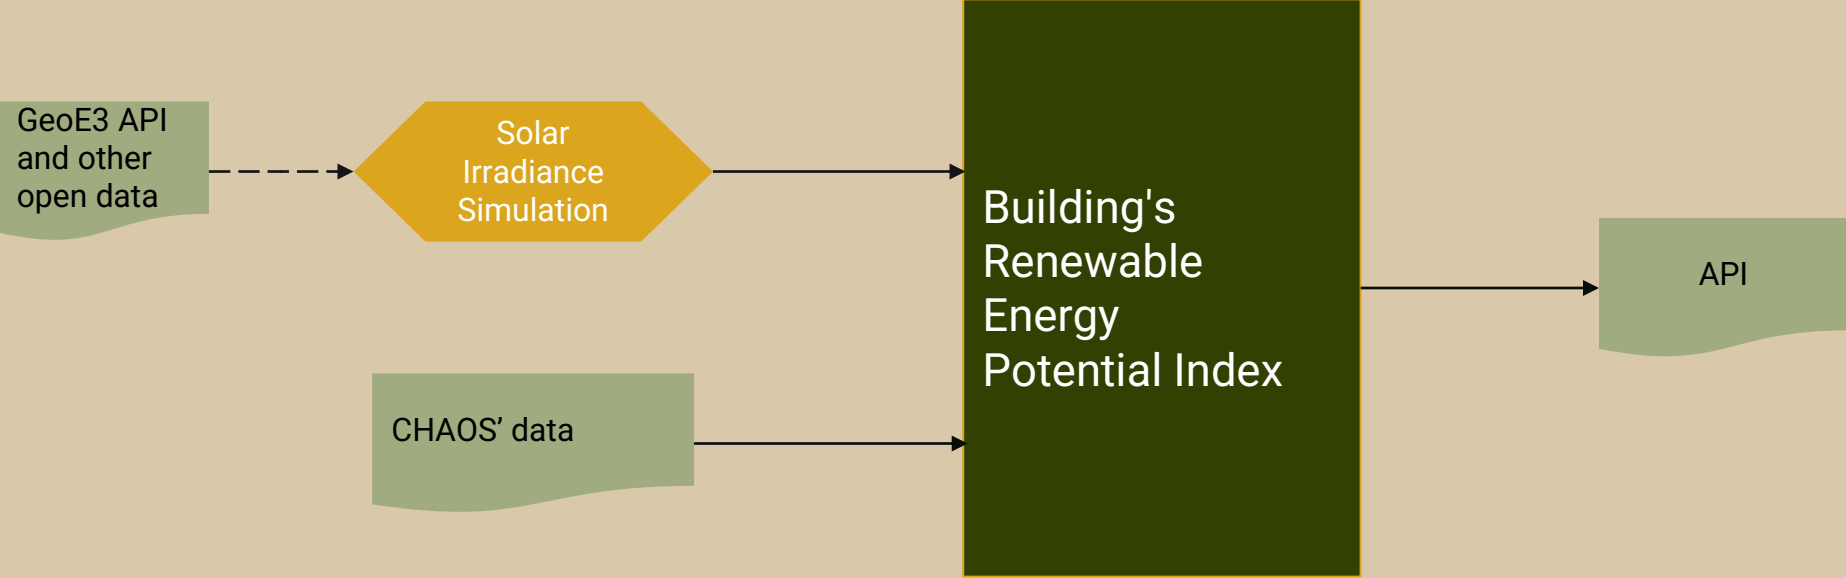

CHAOS

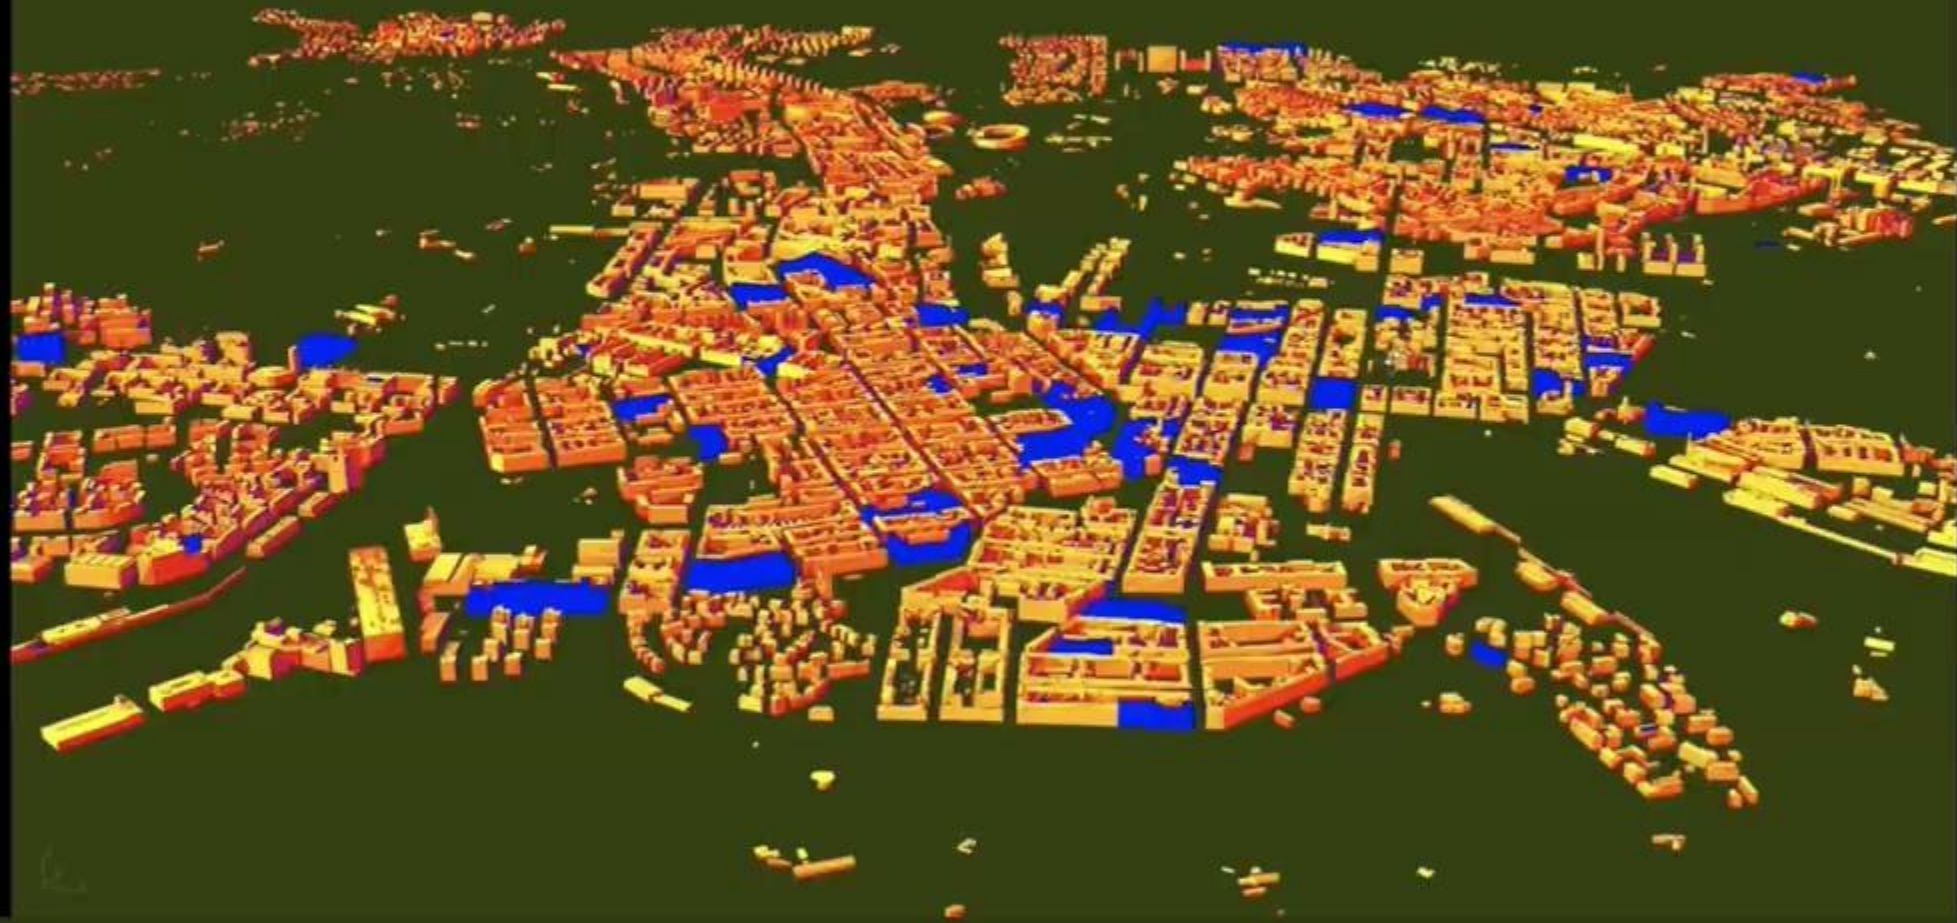

Location Intelligence for Smart Cities Hackathon

- **Hackathon goal:** Encourage new innovative solutions based on GEOE3 and other open source data.
- **Our goal:**
 - Raise awareness of data needs, formats, and profitable business cases.
 - Expand CHAOS offering through a new product line that helps in the ESG transition of our customers.
- **Our solution:** building's renewable energy potential index

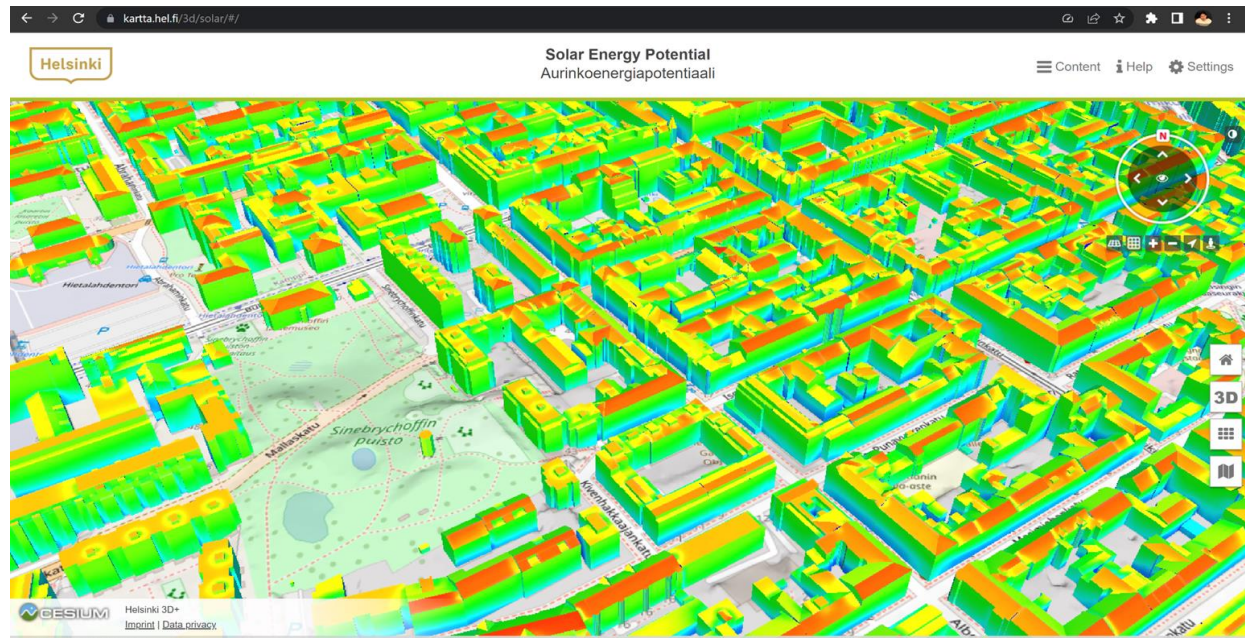

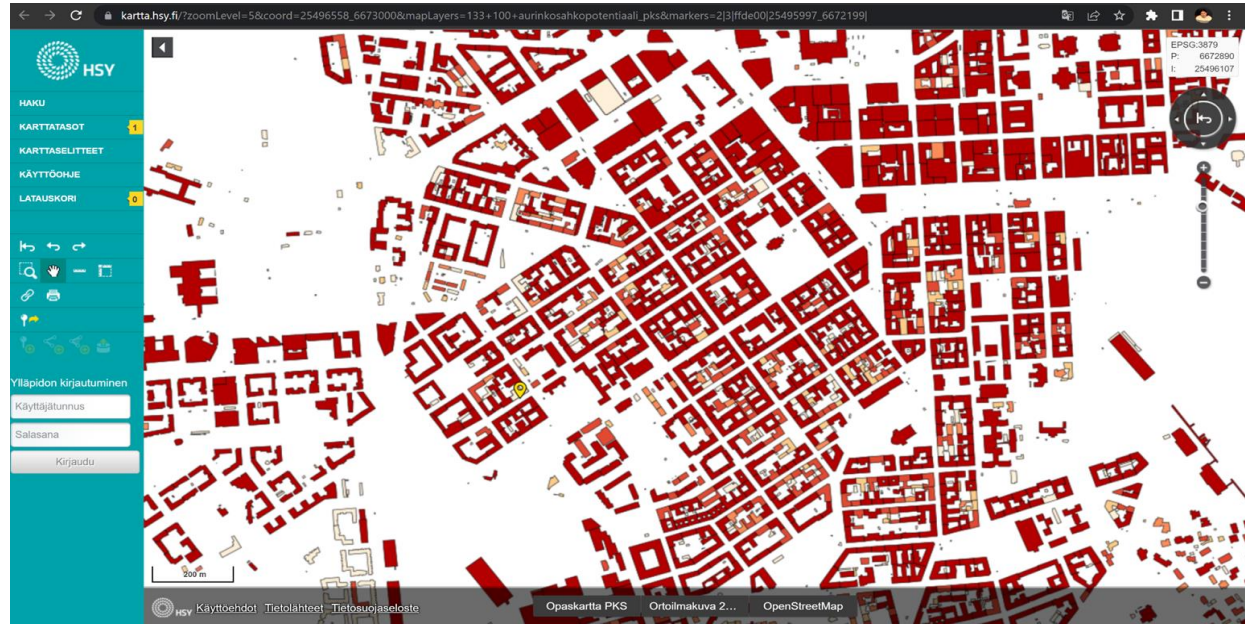

Data Flow Schema

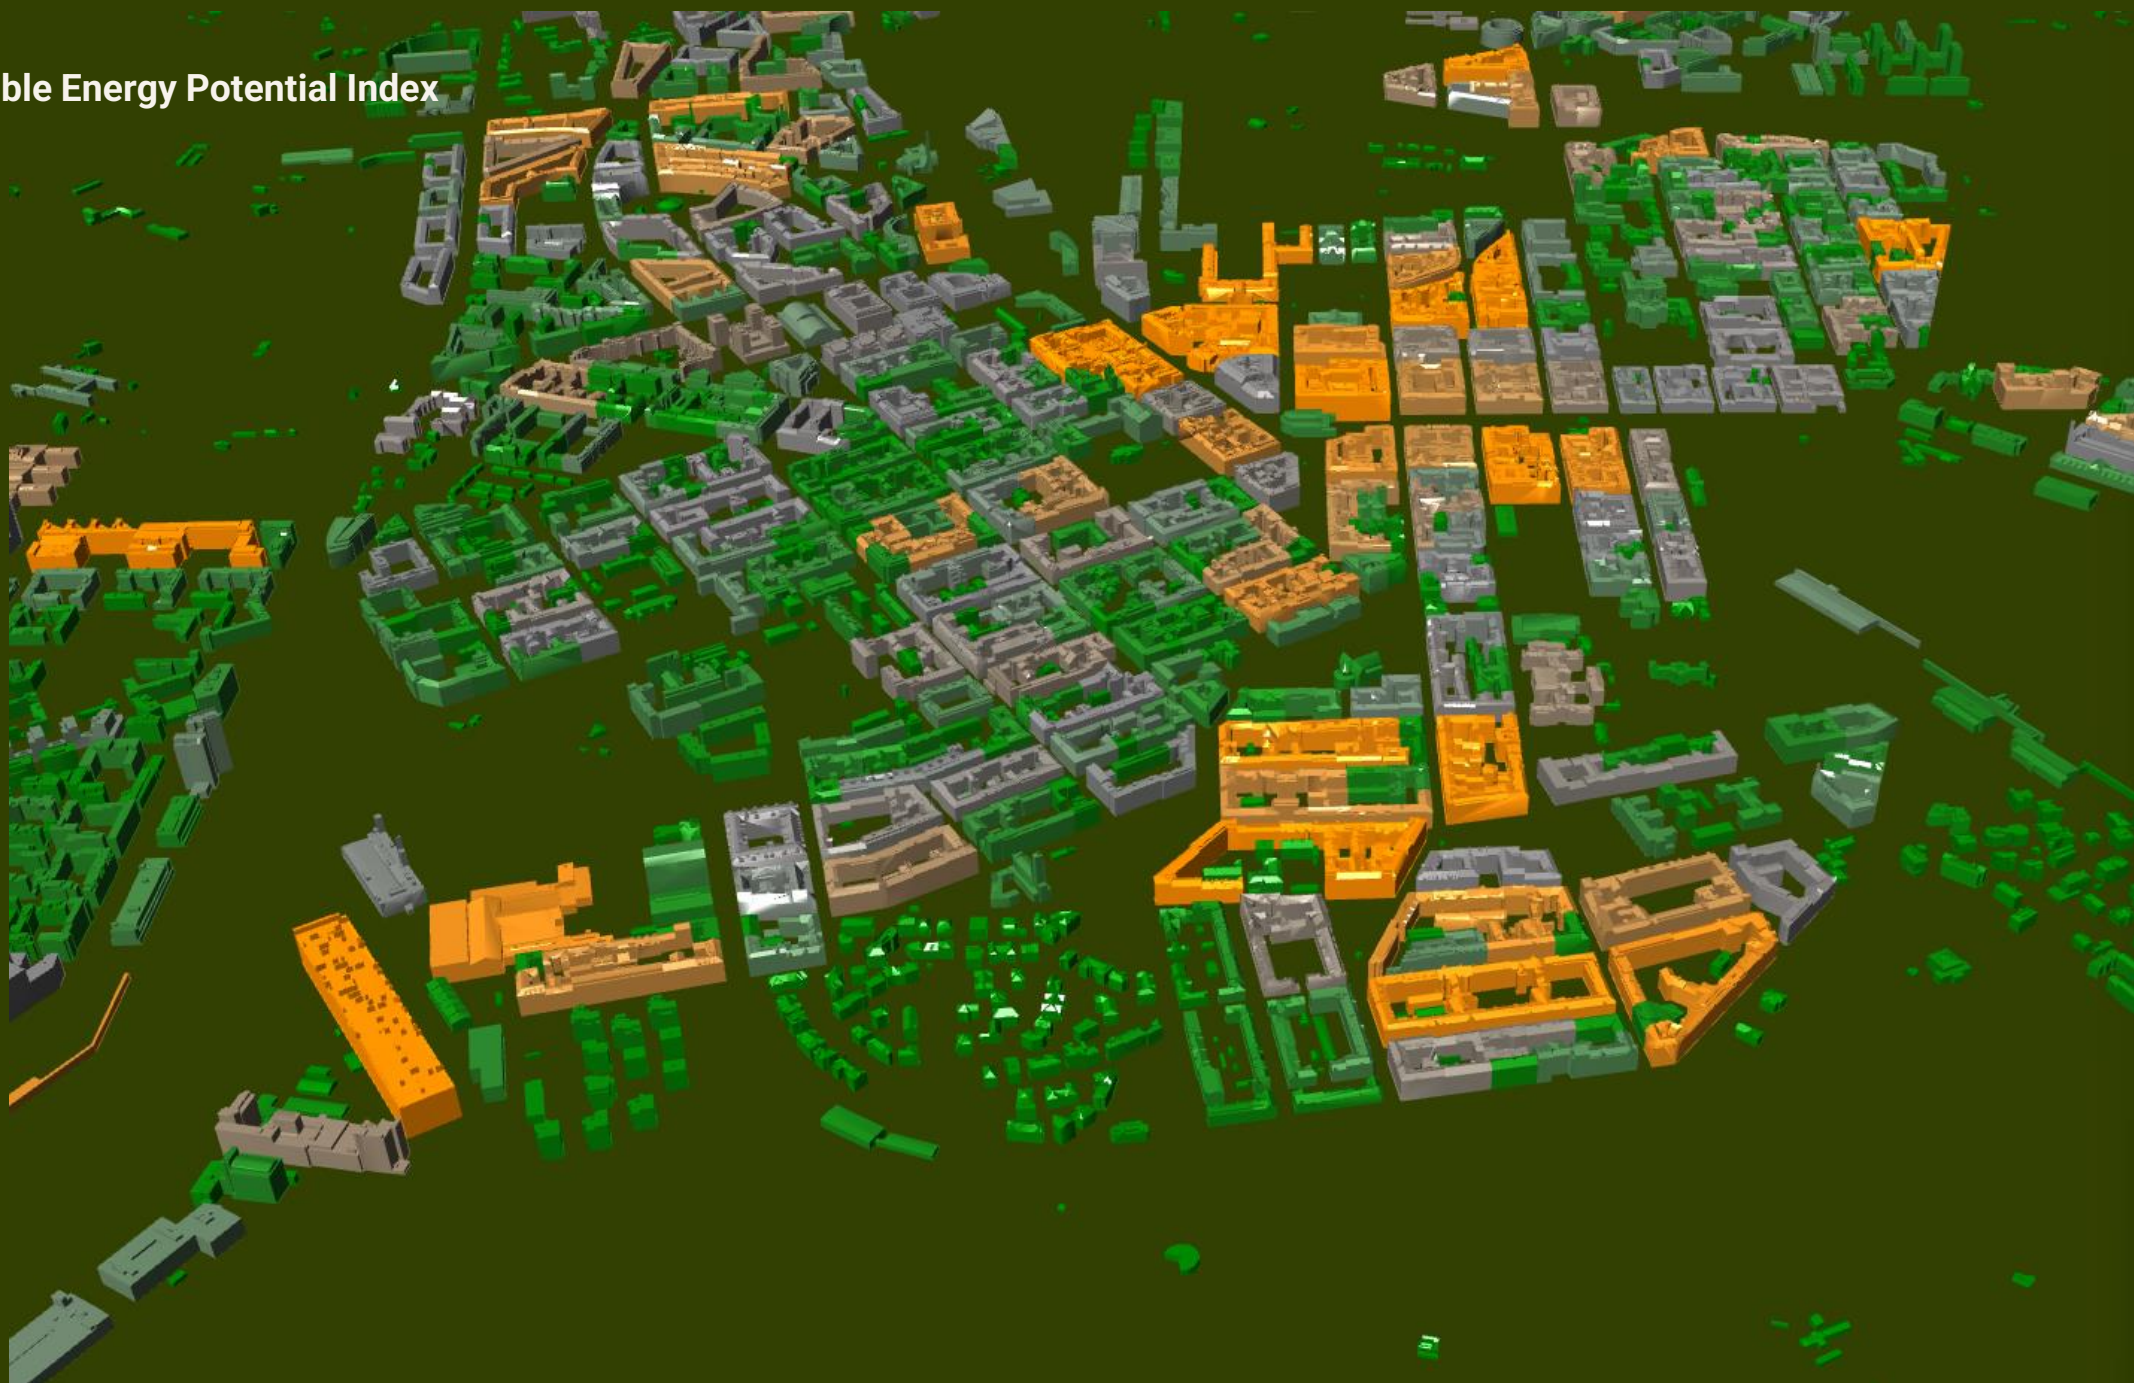

CHAOS

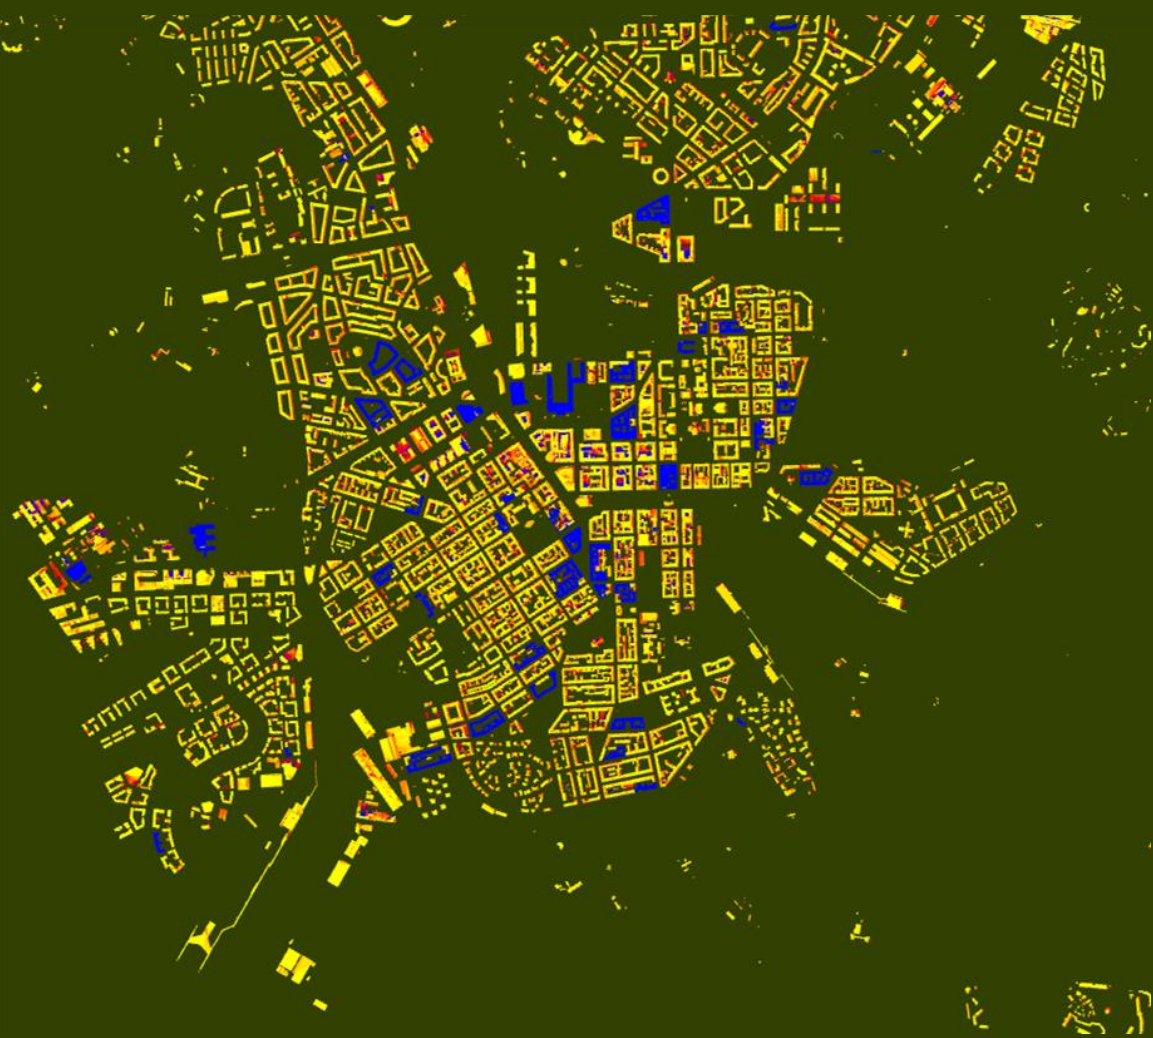

Existing solutions
operate in silos, lack
business insights.

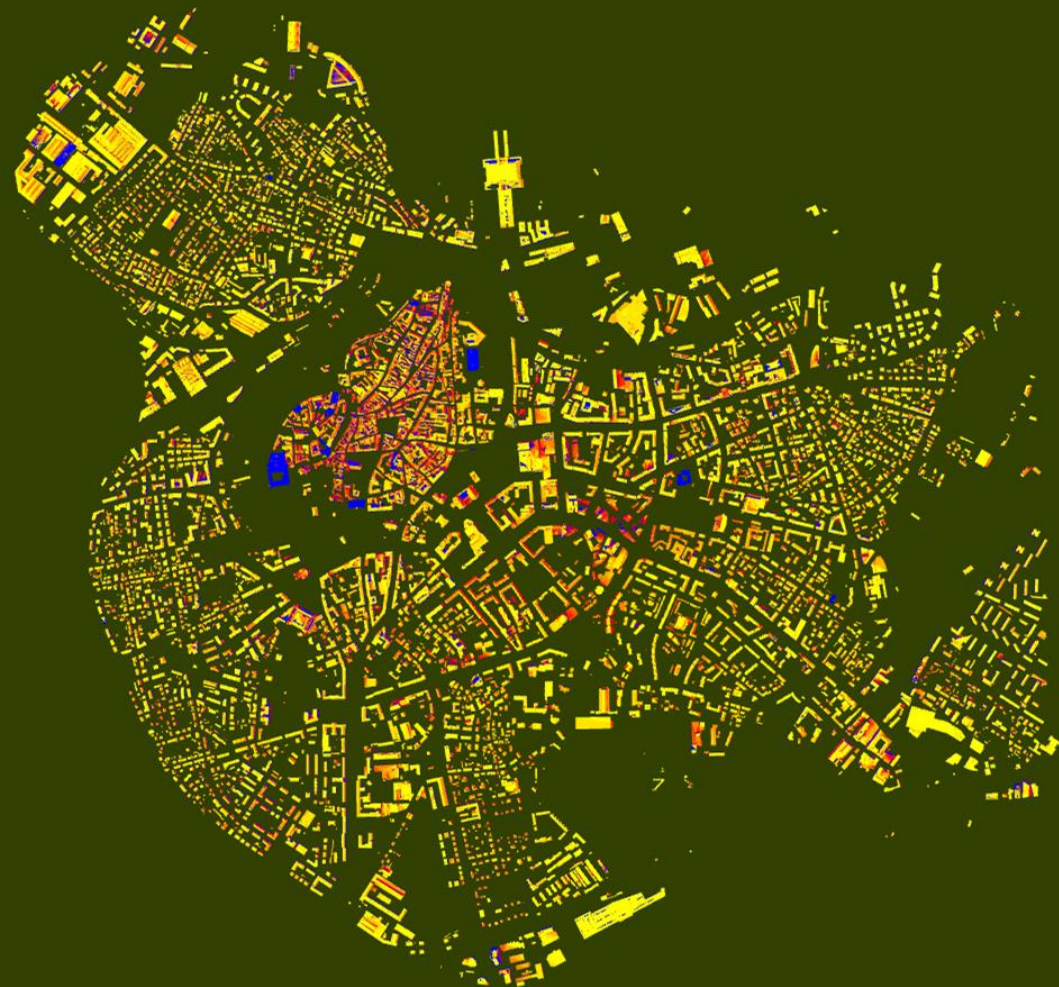

Renewable Energy Potential Index

Highly scalable

Helsinki

Tallinn

We love collaborations and new talent.
